## THE STATE OF NEW HAMPSHIRE.

*To the Inhabitants of the Town of Londonderry in the  
County of Rockingham in said State, qualified to vote  
in Town Affairs:*

[L. s.]

You are hereby notified to meet at the Town Hall in said Londonderry on Tuesday, the fourteenth day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same. For the repairs of roads and bridges, for Memorial Day, and for any other article embraced in this warrant.
3. To see if the town will vote to raise the sum of \$1,506.00 for State Aid construction, the State will furnish \$376.50, making a total of \$1,882.50.
4. To see if the town will vote to raise the sum of \$250.00 for State Aid maintenance, the State will furnish \$250.00, making a total of \$500.00.
5. To see if the town will vote to raise the sum of \$2,000.00 for Trunk line maintenance, the State will furnish \$4,000.00, making a total of \$6,000.00.
6. To see if the town will vote to accept the provisions of chapter 117, laws of 1917, on a section of the Hudson-Derry road, so-called, and appropriate, or set aside from

the amount raised for highway work the sum of \$250.00 for this purpose.

7. To see if the town will vote to raise the sum of \$400.00 to exterminate the White Pine Blister Rust.

In consideration of such an appropriation the State Department will cover any town appropriation on a 25 per cent basis: *provided*, however, that at least \$400.00 is voted by the town.

8. To see if the town will vote to raise the sum of \$5,000.00 for reconstruction of a section of the Rockingham road, the State will furnish \$33,000.00, making a total of \$38,000.00.

9. To see if the town will vote to accept the sum of One Hundred dollars in trust the income to be expended for the perpetual care of the Samuel W. Annis lot in Sunnyside cemetery in Londonderry.

10. To act on any other business that may legally come before this meeting and appropriate money for the same.

Given under our hands and seal, this fourteenth day of February, in the year of our Lord nineteen hundred and twenty two.

E. E. KENT,  
D. F. HICKS,  
G. L. DICKEY,  
*Selectmen of Londonderry.*

## Superintendent's Report

---

*To the Londonderry School Board:*

I herewith submit my second annual report of the schools.

### TEACHERS AND INSTRUCTION.

The teaching force has been depleted by the resignations of Mrs. Abbie Switzer, Marian Davis and Bertha Cox.

Miss Freida Low of Windham was appointed at No. 4, Miss Grace Fountain of Woburn, Mass., at No. 2, and Cecile McKinnon of the same place, at No. 6. Miss Fountain and Miss McKinnon accepted positions in Woburn the first of the winter term. Their places have been taken by Grace Ward of Swanzey, N. H., and Mrs. Celia Moller of Derry, both teachers of some training and experience.

Giving due consideration to the number of changes in the teaching force our progress has been fairly good. The solution of the rural school problem after the buildings have been made healthful and sanitary is in the type of teacher employed. The teacher should be rural minded with normal training and willing to serve three years in a place in order that her services may be effective. She should not only be a good teacher but should possess qualities of leadership in her community. Changes in the teacher either by the removal of the teacher or pupil are disastrous to the pupil. This year our difficulty has not been so much a lack of money to hire such teachers as the scarcity of teachers with even a limited training who are

willing to accept positions in rural schools. It is to be hoped that some trained teachers may be available in the near future.

#### THE JUNIOR SCHOOL.

Mrs. Blodgett was transferred from No. 7 to the new Morrison School last September upon the completion of the building leaving Miss Webster alone at No. 7. Mrs. Blodgett took a course in junior school work last summer at Keene. The work has started stronger in this school than I had expected. The vigorous manner in which the pupils are attacking the work in this school indicates the pupils consider the courses offered of practical value. The school enjoys a unity of purpose and an *esprit de corps* entirely lacking in schools with a large number of grades.

This school has relieved the overcrowded conditions at No. 8 and No. 7 so that the teachers in these schools are doing better work. When a rural school has more than thirty pupils the school should be divided into two rooms or the upper grade pupils transferred to a junior school.

#### STATE APPROVAL OF JUNIOR SCHOOL.

The work in this school should be extended to include practical arts, at least manual training, cooking and sewing. The introduction of these courses will comply with the state requirements for the approval of junior high school.

#### MEASUREMENTS AND TESTS.

Tests have been given in reading, arithmetic, handwriting, spelling, composition and general intelligence. These tests indicate to the teacher very clearly the type of individual treatment each child should receive. The tests disclosed that more individual attention must be given slow and backward children as well as the bright child. It is the

function of the school to correct the undirected experience of the child. The teacher should discover not only the defects but the abilities and aptitudes of the child and direct his energies toward the undertakings and opportunities best suited to his abilities. For a full report of the results of these tests see the Derry School Report of this year.

#### PLANT AND UPKEEP.

The problem of housing your school children properly is still before you. Only one of the school houses (the new Morrison school) conforms to the state law, sect. 24 of the acts of March 28, 1919, which provides a standard school as one (1) maintained at least thirty-six weeks in the year, (2) in a suitable and sanitary building, (3) equipped with approved furniture, books, maps and other necessary appliances, (4) taught by an approved teacher, (5) directed and supervised by an approved superintendent, (6) with suitable provision for the care of the health and physical welfare of all pupils.

In all schools the light should come from the left or from the left and rear of the room. The window space should amount to twenty-five percent of the floor space. In schools where stoves are used they should be jacketed with a fresh air vent and a foul air flue. Adjustable furniture should be provided as rapidly as possible. The out-buildings should be reconstructed on a more substantial scale and connected with the buildings, or chemical toilets provided. The Morrison school is a model of a standard one-room country school. Many schools in this vicinity have been remodelled to comply with these laws. If you are considering complying with these requirements I would suggest that you plan your repair program accordingly. The only other program is that mapped out by me last year.

The school nurse feels that in many details the schools do not conform to sanitary and healthful conditions.

I would call attention to the fact that it is necessary for Londonderry to raise a \$5 tax on the equalized valuation

of the town, \$1,307,676 for elementary school purposes in order for the town to be entitled to state aid. This tax amounts to \$6,538.38.

In conclusion I wish to take this opportunity to thank you for your valuable assistance and hearty co-operation with me in the work of supervising and administering the schools.

Respectfully submitted,

CARL COTTON,  
*Superintendent of Schools.*

February 14, 1922.

---

*To Mr. Carl Cotton, Superintendent of Schools, Londonderry, N. H.*

DEAR SIR—I submit herewith my second report of school nursing, done in Londonderry School District, from January 31, 1921, to March 1, 1922.

The following is a list of the defects found and corrections made:

		Notices to parents.	Cor- rections.
Number examined .....	181	...	...
Malnutrition .....	63	...	...
Defective vision .....	9	9	3
Defective hearing .....	5	5	...
Skin diseases .....	5	5	5
Pediculosis .....	23	23	23
Defective teeth .....	130	130	21
Defective tonsils .....	104	104	4
Enlarged cervical gland .....	69	69	...
Unsuccessful vaccination .....	50	50	50

In addition to these examinations, numerous inspections were made throughout the year, checking up health conditions and habits. Only one set of school buildings has been improved during the year. Seats and desks, lighting, heating, ventilation, ceilings and walls, floors and indecent and unsanitary toilets need immediate attention.

One problem, which we carry along from year to year is that of pediculosis (head lice). Children having head lice are excluded from school under the law which prohibits any person from attending school if afflicted with a communicable disease. In most cases, the children are the same, year after year. Much annoyance is caused other children who are entirely innocent victims. There are effective remedies for this condition, and with stringent efforts on the part of the parents, the entire extermination could be enforced. A school nurse has no jurisdiction over pre or post school age. It is quite necessary to clean up the whole family.

Health education is still in the pioneer stage, and not until we have a definite program extending through the grades, will the general advancement show to any appreciable degree, on the other hand, whatever the course in health education might be, instructions most worth while for any child depends upon the individual needs of the boy or girl.

To my mind the most important equipment any school should have is dependable scales, and systematic weighing. A child should grow and if he or she does not, there is a reason. Weighing once a month and sending the information home with the correct weight for age and height would go far towards stimulating interest in the parents.

The goal we are in quest of is healthy men and women. Healthy men and women will insure to the community a higher mental and moral state.

Much credit is due the teachers for securing the interest of the children along these lines, through their work with the Health Crusade and talks in class. And also the interest created by Walter Camp's "Daily Dozen" suggested by Mr. Cotton.

Respectfully submitted,

ELIZABETH H. McCAULEY, R. N.
